Independent Auditor's Report

To the Board of Education
School District of the City of Garden City

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of the City of Garden City (the "School District") as of and for the year ended June 30, 2010, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District of the City of Garden City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of the City of Garden City as of June 30, 2010 and the respective changes in financial position and cash flows, where applicable, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

As more fully discussed in the management's discussion and analysis section and Note 2 of the financial statements, the School District's General Fund is in a \$456,000 deficit position at June 30, 2010. Management represents that the School District anticipates further loss of students for the fiscal year ending June 30, 2011 and on-going significant cash flow issues. State law requires the School District to implement cost-cutting initiatives that will bring expenditures in line with expected current revenue and eliminate the General Fund deficit.

To the Board of Education
School District of the City of Garden City

The management's discussion and analysis and budgetary comparison schedules, as identified in the table of contents, are not a required part of the basic financial statements but are supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District of the City of Garden City's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is not a required part of the basic financial statements. The other supplemental information is presented for the purpose of additional analysis. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued a report under separate cover dated November 8, 2010 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Plante & Morse, PLLC

School District of the City of Garden City

Management's Discussion and Analysis

This section of the School District of the City of Garden City's (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2010. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School District of the City of Garden City financially as a whole. The district-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant funds - the General Fund and Special Education Fund, with all other funds presented in one column as nonmajor funds. The remaining statements, the statement of fiduciary net assets and the statement of changes in fiduciary net assets, present financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

Other Supplemental Information

Reporting the School District as a Whole - District-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net assets (deficit) and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

School District of the City of Garden City

Management's Discussion and Analysis (Continued)

These two statements report the School District's net assets - the difference between assets and liabilities, as reported in the statement of net assets (deficit) - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net assets - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net assets (deficit) and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, and athletics. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Debt, Food Service, School Services Funds are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net assets (deficit) and the statement of activities) and governmental funds in a reconciliation.

School District of the City of Garden City

Management's Discussion and Analysis (Continued)

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity and scholarship trust funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The School District as a Whole

Recall that the statement of net assets (deficit) provides the perspective of the School District as a whole. Table I provides a summary of the School District's net assets (deficit) as of June 30, 2010 and 2009.

TABLE I

	Governmental Activities	
	June 30	
	2010	2009
	(in millions)	
Assets		
Current and other assets	\$ 17.8	\$ 19.2

Total net deficit	<u>\$ (5.0)</u>	<u>\$ (3.2)</u>

School District of the City of Garden City

Management's Discussion and Analysis (Continued)

The above analysis focuses on the net assets (deficit) (see Table 1). The change in net assets (see Table 2) of the School District's governmental activities is discussed below. The School District's net deficit was \$5.0 million at June 30, 2010. Capital assets, net of related debt totaling approximately (\$1.6) million, compares the original cost, less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use those net assets for day-to-day operations. The remaining amount of net deficit, \$3.5 million, was unrestricted.

The \$3.5 million in unrestricted net deficit of governmental activities represents the accumulated results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net deficit from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities (see Table 2), which shows the changes in net deficit for fiscal years 2010 and 2009.

Management's Discussion and Analysis (Continued)

TABLE 2 (Continued)

	Governmental Activities	
	Year Ended June 30	
	2010	2009
	(in millions)	
Functions/Program Expenses		
Instruction	\$ 45.1	\$ 42.8
Support services	20.5	20.1
Community services	0.3	0.3
Food services	1.4	1.4
Athletics	0.4	0.3
Other	0.1	-
Interest on long-term debt	1.7	1.6
Total functions/program expenses	<u>69.5</u>	<u>66.5</u>
(Decrease) Increase in Net Deficit	<u><u>\$ (1.8)</u></u>	<u><u>\$ 1.7</u></u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$69.5 million. Certain activities were partially funded from those who benefited from the programs (\$1.5 million), or by other governments and organizations that subsidized certain programs with grants and contributions (\$26.9 million). We paid for the remaining “public benefit” portion of our governmental activities with \$6.0 million in taxes, \$32.1 million in state foundation allowance, \$1.5 million in unrestricted federal funds, and with our other revenue, i.e., interest and general entitlements.

The School District experienced a \$1.7 million increase in net deficit. More detailed information is presented in the reconciliation of the statement of revenue, expenditures, and changes in fund balances (deficit) of governmental funds to the statement of activities.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District’s taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District’s Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District’s overall financial health.

School District of the City of Garden City

Management's Discussion and Analysis (Continued)

As the School District completed this year, the governmental funds reported a combined fund deficit of \$288,980, which is a decrease of \$0.6 million from last year. The primary reasons for the decrease are as follows:

In the General Fund, our principal operating fund, the fund balance increased approximately \$16,000. As described in the deficit elimination plan, the School District's plans for eliminating the deficit in the General Fund include expanding Schools of Choice enrollment to offset residential enrollment losses, reducing the number of elementary school buildings (see Note 12), negotiating more cost-effective collective bargaining agreements, and implementing various other cost containment measures.

Combined, the Debt Service Funds showed a fund balance decrease of approximately \$0.4 million. The decrease in fund balance is due to property tax revenue not being collected within the expected time frame. Additionally, decreases in property tax values resulted in lower property tax revenue collections than fiscal year-end 2009. Millage rates are determined annually to ensure that the School District accumulates sufficient resources to pay annual bond issue-related debt service. The millage rates have been increased for fiscal year end 2011 to account for the declining property tax values. Durant debt obligations are funded by annual state appropriation, and no fund balance exists at year-end. Debt Service Funds fund balances are reserved since they can only be used to pay debt service obligations.

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unexpected changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was adopted in June 2010. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in the required supplemental information of these financial statements.

During the year, the budget was amended in a legally permissible manner. Significant amendments between the original and final budgets adopted during the year include a decrease of \$3.2 million in state source revenue due to a proration in the foundation allowance and a \$1.6 million increase to federal source revenue resulting from the receipt of funding from the American Recovery and Reinvestment Act (ARRA). There were no additional significant amendments adopted during the year.

Variances between the final budget and actual amounts for local and interdistrict revenue related to property tax revenue not being collected within the expected time frame and additional Public Act 18 (Act 18) revenue collected during fiscal year end 2010. Instructional staff support expenditures were in excess of final budget primarily due to salaries and benefits for an employee that were budgeted for under pupil support services. Other support expenditures were over budget due to leave payments from compensated absences that were not included in the final budget amendment.

School District of the City of Garden City

Management's Discussion and Analysis (Continued)

Special Education Special Revenue Fund Budgetary Highlights

The program is operated by the School District for Wayne County RESA (RESA) to provide instructional and non-instructional services for autistic students from Wayne County. During the year, the budget was amended in a legally permissible manner. Significant amendments adopted during the year between the original and final budgets included an increase in federal source revenue of \$1.0 million resulting from the receipt of funding from ARRA. The budget for interdistrict revenue was decreased \$0.3 million to account for decreases in the Act 18 funding from RESA.

Variances between the final budget and the actual amounts for interdistrict revenue related to increased amounts of Act 18 revenue allocated to the General Fund to account for costs incurred by the General Fund for the operation of the program. Instruction expenditures were in excess of budget primarily due to increased employee health benefits not accounted for in the final budget amendment.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2010, the School District had \$33.2 million invested in a broad range of capital assets, including buildings, vehicles, furniture, and equipment. This amount represents a net decrease (including additions, disposals, and depreciation) of approximately \$1.9 million.

	<u>2010</u>	<u>2009</u>
Construction in progress	\$ -	\$ 264,560
Buildings and building improvements	58,023,712	57,747,322
Buses and other vehicles	1,781,912	1,835,410
Furniture and equipment	<u>4,077,203</u>	<u>4,015,184</u>
Total capital assets	63,882,827	63,862,476
Less accumulated depreciation	<u>(30,708,448)</u>	<u>(28,756,859)</u>
Net capital assets	<u>\$ 33,174,379</u>	<u>\$ 35,105,617</u>

This year's capital asset additions included building improvements and furniture and equipment. We present more detailed information about our capital assets in the notes to the financial statements.

School District of the City of Garden City

Management's Discussion and Analysis (Continued)

Debt

At the end of this year, the School District had \$34.7 million in bonds outstanding versus \$36.6 million in the previous year - a change of 5.2 percent. Those bonds consisted of the following:

	2010	2009
2006 General Obligation Bonds	\$ 23,750,000	\$ 23,775,000
2005 General Obligation Bonds	7,820,000	7,835,000
2004 General Obligation Bonds	1,120,000	2,185,000
2001 General Obligation Bonds	620,000	1,240,000
Durant Non-Plaintiff Bonds	1,391,190	1,561,401
Total	<u>\$ 34,701,190</u>	<u>\$ 36,596,401</u>

The School District's general obligation bond rating stands at BBB+. The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt," i.e., debt backed by the State of Michigan, such obligations are not subject to this debt limit. The School District's outstanding general obligation debt of \$34,701,190 is significantly below this \$106.7 million statutorily imposed limit.

Other obligations include accrued vacation pay, sick leave, term notes, and early retirement incentive. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2011 fiscal year budget. One of the most important factors affecting the budget is our student count. The state foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2011 fiscal year is 25 percent and 75 percent of the February 2010 and September 2010 student counts, respectively. The 2011 budget was adopted in June 2010, based on an estimate of students that will be enrolled in September 2010. Approximately 80 percent of total General Fund revenue is from the foundation allowance. Under state law, the School District cannot assess additional property tax revenue for general operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2010-2011 school year, we anticipate that the fall student count will be moderately less than the estimates used in creating the 2011 budget. Once the final student count and related per pupil funding are validated, state law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations.

School District of the City of Garden City

Management's Discussion and Analysis (Continued)

Since the School District's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to school districts.

Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances (Deficit) of Governmental Funds to the Statement of Activities Year Ended June 30, 2010

Net Change in Fund Balances - Total Governmental Funds \$ (586,284)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:

Depreciation expense	\$ (2,005,087)	
Capitalized capital outlay	<u>338,409</u>	(1,666,678)

Governmental funds report proceeds from sale of assets as revenue; in the statement of activities, these are recorded net of carrying value of the disposed assets (264,560)

Revenue is reported in the statement of activities when earned; it is not reported in the funds until collected or collectible within 60 days of year end 407,959

Repayment of bond principal is an expenditure in the governmental funds, but not in the statement of activities (where it reduces long-term debt) 1,895,211

Bus note principal payments 95,834

Interest (30,331)

Compensated absences, self-insured liability claims, early retirement incentive and other retirement obligations are recorded when earned in the statement of activities. In the current year, more was earned than was paid out (1,597,909)

Change in Net Assets of Governmental Activities **\$ (1,746,758)**

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note I - Summary of Significant Accounting Policies

The accounting policies of the School District of the City of Garden City (the "School District") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate, component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

District-wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net assets (deficit) and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's district-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenue are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note I - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

District-wide Financial Statements - The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes, unrestricted federal grants, and unrestricted state aid.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental funds:

General Fund - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note I - Summary of Significant Accounting Policies (Continued)

Special Education Fund - The Special Education Fund is a Special Revenue Fund, the purpose of which is to segregate, for administrative purposes, the transactions relating to the operation of the School District's Special Education Center Program.

Additionally, the School District reports the following fund types:

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The School District's Special Revenue Funds include the Food Services and School Services Funds. Any operating deficit generated by these activities is the responsibility of the General Fund.

Debt Service Funds - Debt Service Funds are used to record tax and interest revenue and the payment of interest, principal, and other expenditures on long-term debt.

Capital Projects Fund - The Capital Projects Fund is used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring new school sites, buildings, equipment, and for remodeling. The fund operates until the purpose for which it was created is accomplished.

Fiduciary Funds - Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent. The Agency Fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operations. The Private Purpose Trust Fund accounts for funds entrusted to the School District for scholarship awards.

Assets, Liabilities, and Net Assets or Equity

Cash and Cash Equivalents - Cash and cash equivalents include cash on hand, demand deposits, and money market funds with a maturity of three months or less when acquired.

Receivables and Payables - In general, outstanding balances between funds are reported as due to/from other funds.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes are levied and become a lien on July 1 for approximately 50 percent of those taxes that are due August 15 and December 1 for the remainder of the property taxes that are due on February 14. The final collection date is February 28, after which they are added to the county tax rolls.

Prepaid Costs - Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both district-wide and fund financial statements.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note I - Summary of Significant Accounting Policies (Continued)

Restricted Assets - The unspent bond proceeds and related interest of the Capital Projects Funds require amounts to be set aside for construction. These amounts have been classified as restricted assets and total \$60,516 at year end.

Capital Assets - Capital assets, which include construction in progress, buildings, equipment, and vehicles, are reported in the applicable governmental activity column in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and building additions	25-50 years
Buses and other vehicles	5-8 years
Furniture and other equipment	5-20 years

Compensated Absences - The liability for compensated absences reported in the district-wide financial statements consists of earned but unused accumulated vacation and sick leave benefits and early retirement incentive obligations. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Other Postemployment Benefits - The liability for other postemployment benefits reported in the district-wide statements consists of contractual obligations for the School District to provide health insurance benefits to eligible retirees.

Long-term Obligations - In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets (deficit).

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Comparative Data - Comparative data is not included in the School District's financial statements.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

Upcoming Accounting Pronouncement - In March 2009, the GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Under this standard, the fund balance classifications of reserved, designated, and unreserved will be replaced with five new classifications: nonspendable, restricted, committed, assigned, and unassigned. The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The School District will implement Statement No. 54 beginning with the fiscal year ending June 30, 2011.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information - Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and state law for the General, Special Revenue, Debt Service, and Capital Projects Funds, except for operating transfers in, transfers out, and proceeds from debt issuance, which are classified within revenue and expenditures rather than within other financing sources (uses). All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and activity. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the activity level. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the goods or services have not been received as of year end; the commitments will be reappropriated and honored during the subsequent year.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 2 - Stewardship, Compliance, and Accountability (Continued)

Excess of Expenditures Over Appropriations in Budgeted Funds - The School District had the following significant expenditure budget variances:

	<u>Budget</u>	<u>Actual</u>
General Fund - Support services - Instructional staff	\$ 2,223,000	\$ 2,319,545
General Fund - Support services - Other	10,000	47,897
Special Revenue Fund - Instruction	13,078,986	13,288,723

Fund Deficits - As of June 30, 2010, the School District has an accumulated fund balance deficit in the General Fund approximating \$456,000. The deficit is a violation of State law. A deficit elimination plan, as required, has been filed with the State of Michigan. The School District has an accumulated fund balance deficit in the 2001 Refunding Bond fund approximating \$132,000. As described in the deficit elimination plan, the School District's plans for eliminating the deficit in the General Fund include expanding Schools of Choice enrollment to offset residential enrollment losses, reducing the number of elementary school buildings (see Note 12), negotiating more cost-effective collective bargaining agreements, and implementing various other cost containment measures.

Note 3 - Deposits

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated four banks for the deposit of its funds.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 3 - Deposits (Continued)

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. At year end, the School District's deposit balance of \$6,676,714 had \$6,426,714 of bank deposits (certificates of deposit, checking, and savings accounts) that were uninsured and uncollateralized. The School District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have a policy for custodial credit risk of investments and does not have investments with custodial credit risk.

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District does not have a policy for interest rate risk and does not have investments with interest rate risk.

Credit Risk - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District does not have an investment policy further limiting its investment choices. The School District does not have a policy for credit risk and does not have any investments held at year end subject to credit risk.

Concentration of Credit Risk - The School District places no limit on the amount the School District may invest in any one issuer. The School District does not have investments in any one issuer of more than 5 percent of the School District's total investments.

Foreign Currency Risk - Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law prohibits investment in foreign currency.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 4 - Receivables

Receivables as of year end for the School District's individual major funds and the nonmajor funds in the aggregate are as follows:

	<u>General Fund</u>	<u>Special Education Fund</u>	<u>Nonmajor Funds</u>	<u>Total</u>
Receivables:				
Taxes	\$ 382,395	\$ -	\$ 229,352	\$ 611,747
Accounts	153,383	-	3,806	157,189
Intergovernmental	8,474,501	1,130,348	65,329	9,670,178
	<u>9,010,279</u>	<u>1,130,348</u>	<u>298,487</u>	<u>10,439,114</u>
Net receivables	<u>\$ 9,010,279</u>	<u>\$ 1,130,348</u>	<u>\$ 298,487</u>	<u>\$ 10,439,114</u>

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes	\$ 605,024	\$ -
Interdistrict special education payments	844,729	-
Grant and categorical aid payments not received	73,142	-
Grant and categorical aid payments received prior to meeting all eligibility requirements	-	13,340
Other	-	59,924
	<u>1,522,895</u>	<u>73,264</u>
Total	<u>\$ 1,522,895</u>	<u>\$ 73,264</u>

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 5 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

Governmental Activities	<u>Balance July 1, 2009</u>	<u>Additions/ Reclassifications</u>	<u>Disposals/ Reclassifications</u>	<u>Balance June 30, 2010</u>
Capital assets not being depreciated - Construction in progress	\$ 264,560	\$ -	\$ 264,560	\$ -
Capital assets being depreciated:				
Buildings and building improvements	57,747,322	276,390	-	58,023,712
Furniture and equipment	4,015,184	62,019	-	4,077,203
Buses and other vehicles	<u>1,835,410</u>	<u>-</u>	<u>53,498</u>	<u>1,781,912</u>
Subtotal	63,597,916	338,409	53,498	63,882,827
Accumulated depreciation:				
Buildings and building improvements	24,412,407	1,633,921	-	26,046,328
Furniture and equipment	2,684,988	276,640	-	2,961,628
Buses and other vehicles	<u>1,659,464</u>	<u>94,526</u>	<u>53,498</u>	<u>1,700,492</u>
Subtotal	<u>28,756,859</u>	<u>2,005,087</u>	<u>53,498</u>	<u>30,708,448</u>
Net capital assets being depreciated	<u>34,841,057</u>	<u>(1,666,678)</u>	<u>-</u>	<u>33,174,379</u>
Net capital assets	<u>\$ 35,105,617</u>	<u>\$ (1,666,678)</u>	<u>\$ 264,560</u>	<u>\$ 33,174,379</u>

Depreciation expense was charged to activities of the School District as follows:

Governmental activities:	
Instruction	\$ 1,403,560
Support services	<u>601,527</u>
Total governmental activities	<u>\$ 2,005,087</u>

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Fund Due To	Fund Due From			Total
	General Fund	Nonmajor Governmental Funds	Fiduciary Funds	
General Fund	\$ -	\$ 442,737	\$ 41,087	\$ 483,824
Special Education Fund	1,855,587	-	-	1,855,587
Nonmajor governmental funds	-	315,910	-	315,910
Total	<u>\$ 1,855,587</u>	<u>\$ 758,647</u>	<u>\$ 41,087</u>	<u>\$ 2,655,321</u>

Interfund balances represent routine and temporary cash flow assistance from various funds until amounts are transferred from available assets.

Transfers In	Fund Advanced From			Total
	General Fund	Special Education Fund	Nonmajor Governmental Funds	
General Fund	\$ -	\$ 499,114	\$ 44,395	\$ 543,509
Other nonmajor governmental funds	308,085	-	-	308,085
Total	<u>\$ 308,085</u>	<u>\$ 499,114</u>	<u>\$ 44,395</u>	<u>\$ 851,594</u>

Transfers from the General Fund subsidized athletics operations of the School Services Fund. Transfers from the Special Education Fund and the School Services Fund to the General Fund were for indirect costs covered by the General Fund.

Note 7 - Line of Credit

The School District has a line of credit agreement with a bank with available borrowings up to \$11,000,000. Any outstanding balance bears interest at 2.50 percent. At June 30, 2010, the School District had an outstanding balance of \$7,407,000. The line of credit expired on August 19, 2010. The line of credit and related accrued interest were paid in full on August 23, 2010.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 8 - Long-term Debt

The School District issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Note agreements are also general obligations of the School District. Other long-term obligations include compensated absences and termination benefits.

Long-term obligation activity can be summarized as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities					
Bonds	\$ 35,035,000	\$ -	\$ 1,725,000	\$ 33,310,000	\$ 1,780,000
Durant Non-Plaintiff Bond	1,561,401	-	170,211	1,391,190	178,318
Total bonds payable	36,596,401	-	1,895,211	34,701,190	1,958,318
Notes	161,065	-	95,834	65,231	42,396
Early retirement incentive	-	1,239,000	-	1,239,000	413,000
Employee compensated absences	1,665,582	523,581	694,251	1,494,912	105,000
Other postemployment benefits	57,019	74,579	-	131,598	-
Total governmental activities	\$ 38,480,067	\$ 1,837,160	\$ 2,685,296	\$ 37,631,931	\$ 2,518,714

Annual debt service requirements to maturity for the above bond and note obligations are as follows:

Years Ending June 30	Governmental Activities		
	Principal	Interest	Total
2011	\$ 2,000,716	\$ 1,602,324	\$ 3,603,040
2012	1,354,630	1,518,972	2,873,602
2013	2,216,075	1,794,060	4,010,135
2014	1,235,000	1,383,400	2,618,400
2015	1,280,000	1,321,900	2,601,900
2016-2020	7,405,000	5,585,850	12,990,850
2021-2025	8,690,000	3,611,752	12,301,752
2026-2030	8,845,000	1,582,878	10,427,878

Notes to Financial Statements June 30, 2010

Note 8 - Long-term Debt (Continued)

Governmental Activities

General obligation bonds consist of the following:

\$36,585,000 of 2001 serial bonds due in annual installments of \$620,000 through May 1, 2011; interest at 4.30 percent	\$ 620,000
\$6,785,000 of 2004 refunding bonds due in annual installments of \$1,120,000 through May 1, 2011; interest at 4.00 percent	1,120,000
\$2,919,543 School Improvement Bond, Series 1998 Durant Non-Plaintiff Bond due in annual installments of \$178,318 to \$1,026,075 from May 15, 2009 through May 15, 2013; interest at 4.761 percent	1,391,190
\$7,880,000 of 2005 refunding bonds due in annual installments of \$15,000 to \$1,455,000 through May 1, 2018; interest at 3.50 percent to 5.00 percent	7,820,000
\$23,860,000 of 2006 refunding bonds due in annual installments of \$25,000 to \$1,785,000 through May 1, 2031; interest at 4.00 percent to 5.00 percent	<u>23,750,000</u>
Total bonded debt	<u>\$ 34,701,190</u>

Durant Non-Plaintiff Bond - Included in governmental activities general obligation bonds is the Durant Non-Plaintiff Bond. Annual total payments (principal and interest) associated with this bond are funded by the State of Michigan via specifically appropriated state aid and will not require any School District debt levy or utilization of any other School District financial resources.

Notes consist of the following:

Date	Original Amount	Due Date	Interest Rate	Remaining to Maturity	
				Interest	Principal
10/29/04	\$ 113,296	Annually through November 1, 2010	4.09 %	\$ 842	\$ 20,599
11/01/05	<u>122,377</u>	Annually through November 1, 2011	4.75	<u>3,205</u>	<u>44,632</u>
Total	<u>\$ 235,673</u>			<u>\$ 4,047</u>	<u>\$ 65,231</u>

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 8 - Long-term Debt (Continued)

Early Retirement Incentive - The School District offered a voluntary early retirement incentive (ERI) to one group of employees. The amount includes ERI payments of \$413,000 each year for three years. Future payment obligations for the years ending June 30 are as follows:

<u>Years Ending June 30</u>	<u>Amount</u>
2011	\$ 413,000
2012	413,000
2013	<u>413,000</u>
Total	<u>\$ 1,239,000</u>

Other governmental activities long-term obligations are for employee compensated absences of \$2,021,314.

Defeased Debt - In prior years, the School District defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts assets and liabilities for the defeased bonds are not included in the basic financial statements. At June 30, 2010, \$34,215,000 of bonds outstanding are considered defeased.

Note 9 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District participates in the Michigan Association for Improved School Legislation (MAISL) risk pool for claims relating to property loss, torts, errors and omissions, and employee injuries (workers' compensation); the School District is uninsured for health and dental claims.

The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 9 - Risk Management (Continued)

For risk retention situations, the School District estimates the liability for health and dental claims that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported. These estimates are recorded in the district-wide statements. The self-insurance accrual at June 30, 2010 is \$500,000. Changes in the estimated liability for the past two fiscal years were as follows:

	<u>2010</u>	<u>2009</u>
Estimated liability - Beginning of year	\$ 450,000	\$ 873,641
Estimated claims incurred - Including changes in estimates	6,055,094	5,167,623
Claim payments	<u>(6,005,094)</u>	<u>(5,591,264)</u>
Estimated liability - End of year	<u>\$ 500,000</u>	<u>\$ 450,000</u>

Note 10 - Defined Benefit Pension Plan

Plan Description - The School District participates in the Michigan Public School Employees' Retirement System (MPERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The system provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The system also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System at 7150 Harris Drive, P.O. Box 30171, Lansing, MI 48909.

Pension Benefits - Employer contributions to the pension system result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits. The employer contribution rate was 9.73 percent of covered payroll for the period from July 1, 2009 through September 30, 2009 and 9.60 percent for the period from October 1, 2009 through June 30, 2010. Basic plan members make no contributions, but member investment plan or MIP plus members contribute at rates ranging from 3 percent to 6.4 percent of gross wages, depending on the plan. The School District's required and actual contributions to the plan for the years ended June 30, 2010, 2009, and 2008 were approximately \$3,260,000, \$3,510,000, and \$3,672,000, respectively.

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 10 - Defined Benefit Pension Plan (Continued)

Postemployment Benefits - Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate was 6.81 percent of covered payroll for the period from July 1, 2009 through September 30, 2009 and 7.34 percent for the period from October 1, 2009 through June 30, 2010. The School District's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2010, 2009, and 2008 were approximately \$2,385,000, \$2,360,000, and \$2,252,000, respectively.

Note 11 - Other Postemployment Benefits

Plan Description - The School District has an obligation to pay healthcare premiums for eligible early retirees in amount not to exceed \$1,500 per year, per individual, until the retiree reaches the age of 65. Currently, the plan has approximately 700 members (including employees in active service, terminated employees not yet receiving benefits, and retired employees and beneficiaries currently receiving benefits).

This is a single employer defined benefit plan administered by the School District. The benefits are provided under collective bargaining agreements. The plan does not issue a separate stand-alone financial statement.

Funding Policy - The School District has no obligation to make contributions in advance of when the insurance premiums are due for payment (in other words, this may be financed on a "pay-as-you-go" basis).

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 11 - Other Postemployment Benefits (Continued)

Funding Progress - For the year ended June 30, 2010, the School District has estimated the cost of providing retiree healthcare benefits through an actuarial valuation as of June 30, 2009. The valuation computes an annual required contribution, which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. This valuation's computed contribution and actual funding are summarized as follows:

	2009	2010
Annual required contribution (recommended)	\$ 173,333	\$ 173,680
Interest on the prior year's net OPEB obligation	-	2,281
Less adjustment to the annual required contribution	-	(3,228)
Annual OPEB cost	171,333	172,733
Amounts contributed - Payments of current premiums	(114,314)	(98,154)
Change in net OPEB obligation	57,019	74,579
OPEB obligation - Beginning of year	-	57,019
OPEB obligation - End of year	\$ 57,019	\$ 131,598

The annual OPEB costs, the percentage contributed to the plan, and the net OPEB obligation for the current year were as follows:

	Fiscal Year Ended June 30, 2009	Fiscal Year Ended June 30, 2010
Annual OPEB costs	\$ 173,333	\$ 172,733
Percentage contributed	67 %	57 %
Net OPEB obligation	\$ 57,019	\$ 131,598

The funding progress of the plan as of the most recent valuation date is as follows:

	2009
Market value of assets	\$ -
Actuarial accrued liability (AAL)	\$ 1,964,841
Unfunded AAL (UAAL)	\$ 1,964,841
Funded ratio	- %

School District of the City of Garden City

Notes to Financial Statements June 30, 2010

Note 11 - Other Postemployment Benefits (Continued)

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2009 actuarial valuation, the projected unit credit (level dollar) actuarial cost method was used. The actuarial assumptions included a 4.0 percent discount rate and life expectancies based on the 1994 GAM Static (sex-distinct) Mortality Table. The UAAL is being amortized as a level dollar amortization method on a closed basis. The remaining amortization period at June 30, 2010 was 19 years.

Note 12 - Subsequent Events

Building Closure - Effective July 1, 2010, the School District closed one elementary building, and the building will not be used for its original intended purpose. The School District is currently evaluating the amount of impairment associated with the building closure in accordance with GASB. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*.

State Aid Anticipation Notes - On August 20, 2010, the School District of the City of Garden City borrowed \$10,000,000 on state aid anticipation notes. The notes bear interest at 0.80 percent and 0.40 percent and mature on August 19, 2011 and August 22, 2011, respectively.
